

ACTUATOR FOR CONNECTED ENERGY

ACE 008/P

APPLICATION

- ACE 008/P is a rotary actuator for ball control valves.
- Due to the adjustable torque, single motor, it is suitable for V-BALL control valves from DN 15 to DN 50.
- It is equipped with a mechanical release that disconnects the motor control, allowing manual handling of the valve using a handle on the actuator.
- AVAILABLE FROM JUNE
